This coordination is issued to the following Trustee:

Darrell C. Curtis, K1DCC

5869 Teuscher Road

Verona, NY 13478

Please be advised that UNYREPCO has approved your request for coordination. This coordination is subject to the conditions listed below:

Station Call Sign:	KA2FWN	Latitude (DDMMSS):	43-02-15.3 N
Station Transmit Frequency:	147.240 MHz	Longitude (DDMMSS):	75-25-34.6 W
Station Receive Frequency:	147.840 MHz	Antenna Height Above Ground:	70 feet
Effective Radiated Power (ERP):	254 Watts	CTCSS Tone:	71.9 Hz

This coordination must protect to the following existing conditions:

WA2UMX, Saratoga Springs, must be protected from interference.

Terms and Conditions:

This coordination is subject to a twelve month probationary period. Failure to construct and operate this station within ONE YEAR from the date of this certificate will void the coordination. Once the station is placed into operation, notification of ON AIR status MUST be made to the council. This will commence the six month evaluation period for interference. If no valid interference is reported, then this coordination becomes valid.

ANY station modifications to the coordination parameters listed above must be submitted in writing to UNYREPCO. UNYREPCO and adjacent recognized coordination councils, if necessary, will review the Request for Modification of Coordination. Failure to notify UNYREPCO of any modification to the above listed coordination parameters can result in a loss of coordination status. This coordination is transferrable only to a new station call sign or trustee only upon written notification to UNYREPCO.

This document replaces all previous UNYREPCO coordination documents.

Thomas R. Ray, III, W2TRR

President, Upper New York Repeater Council, Inc.
